Reasons for Allowance

The following is an examiner's statement of reasons for allowance: applicant's arguments with respect to the prior art of record is deemed persuasive. In particular, applicant's assertion that the Rittman, III et al device is not particularly concerned with the position and orientation of the electrode device in view of its directed application of energy using specifically shaped electrodes is relevant, and there is insufficient motivation to provide such a system with a position and orientation means as taught by Ben-Haim et al as previously argued by the examiner. The prior art as a whole fails to disclose the particular catheter system that includes an ablation device having a position and orientation sensor on the distal end of the catheter, and includes a controller that computes the position and orientation coordinates and a prediction of an extent of ablation as fairly recited in independent claims 25 and 40.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (571) 272-4770. The examiner can normally be reached on Mon-Fri from 7am-4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
